COMPANY OVERVIEW

Arrows Logistics LLC is an Iowa based freight brokerage and logistics coordination company with nine years of operating history. The company arranges full truckload, less than truckload, refrigerated, flatbed, and expedited freight transportation, and supports customers with product sourcing, wholesale procurement, and short term warehousing and distribution. Arrows Logistics is positioned to support federal agencies, prime contractors, and commercial organizations with responsive transportation, procurement, and supply chain solutions.

CORE COMPETENCIES

- **Truckload and LTL freight coordination** across dry van, refrigerated, and flatbed equipment for time sensitive and specialized shipments.
- **Carrier sourcing, qualification, and rate negotiation** to secure compliant, insured transportation capacity at competitive cost.
- **Multi-stop and cross-country shipment management** with shipment tracking and proof of delivery documentation for full audit visibility.
- **Product sourcing and wholesale procurement**, connecting agencies and prime contractors directly to manufacturers and suppliers.
- **Government and industrial supply distribution**, including office, janitorial, safety, and emergency and disaster supplies.
- **Short-term warehousing and order fulfillment**, including pick and pack, cross-docking, and distribution to multiple locations.

DIFFERENTIATORS

- **Single-source model** combining freight brokerage, procurement, and distribution, reducing the number of vendors a customer must manage on a single shipment or order.
- **Scalable transportation capacity** that flexes with customer shipment volume without requiring the customer to maintain a private fleet.
- **Nine years of operating history** in commercial freight transportation and logistics coordination.

SCOPE OF SERVICES

Focus: Transportation, freight brokerage, logistics coordination, procurement, product sourcing, supply, and distribution services throughout the United States.

Not Pursuing: Highly specialized construction, engineering, architectural, medical, cybersecurity, software development, or defense manufacturing contracts requiring facilities, equipment, or licenses the company does not currently hold.
